

# Research Study

Goal: to explore the work-related experiences of people with intellectual disabilities and improve the Vocational Fit Assessment Tool

## Who Can Participate?

- Adults with ID, ages 18-22, who are currently engaged in work activities
- AND a person who knows them well and has been a part of their life for over 60 days (e.g. teacher, parent, job coach, employer)

## What will you do?

- Interview partners will provide background information on the adult with intellectual disability and talk about their skills or work history.

## How long will it take? Will I get paid?

Each interview will take about 2 hours. There will be 4 interviews: 1 now, again in 2-4 weeks, in 12 months, and again in 24 months. Each participant will receive \$40 per interview, so \$160 in total.
